

## **USM Supply Chain News**

# **CNC Machine Acquisitions Expand Capabilities**

Many of our clients are familiar with **USM Precision Products** for our expertise in turning capabilities. But, we would also like you to be aware of the variety of machining we do, especially our extensive CNC milling capabilities. **USM** is your full-service precision parts manufacturer.

We recently acquired three new Vertical Machining Centers as part of our 5-year technology upgrade business plan. These new additions offer specific machine features including:

- Twin pallet shuttles and swing-type APC systems
- 18" x 36" work envelope
- 12,000 RPM spindles with high pressure coolant

Regardless of the part configuration or material grade, we can expertly handle your close tolerance applications and welcome the chance to review your particular requirements.

Please call us to discuss how **USM** can help you be more productive and profitable.

### **About USM Precision Products**

Established in 1979 as primarily a screw machine manufacturer, **USM** has evolved into a diversified contract manufacturer of precision-machined metal components and assemblies, serving a variety of industries - from the global automotive, heavy truck and fluid power industries, to aerospace, military/defense, firearms, medical and renewable energy.
